

Washbasin

When planning sanitary installations which are barrier-free or suitable for disabled users, the following standards apply within Germany:

DIN 18040 Part 1 for publicly accessible buildings

DIN 18025 Part 1 for apartments for wheelchair users

DIN 18025 Part 2 for barrier-free apartments.

- Wheelchair can be moved in all the way under the washbasin, upper edge 80 cm above the floor, knee space to a depth of 30 cm up to a height of at least 67 cm.
- Pillar tap operable with one hand or touch-free, water temperature limited to maximum 45 °C, maximum distance to basin front 40 cm.
- Soap dispenser (if installed) mounted to the side, removal height between 85 cm and 100 cm.
- Free space for movement in front of washbasin: at least 120 cm x 120 cm for DIN 18025/2, otherwise at least 150 cm x 150 cm.
- Horizontal clearance between support rails and washbasin/vanity unit at least 10 cm and no more than 30 cm.
