

## Toilet area

- Toilet seat height: upper edge 46 cm - 48 cm high, depth 70 cm (55 cm to backrest).
- Flush can be operated from either side with hand or arm without the user needing to alter seated position.
- Space for movement to the side: at least 95 cm on one side (for DIN 18025/1) or 90 cm both sides (for DIN 18040/1).
- Free space for movement in front of seat: at least 120 cm x 120 cm for DIN 18025/2, otherwise at least 150 cm x 150 cm.
- Support rails on both sides 28 cm over seat height, 65 cm - 70 cm between rails, rails at least 85 cm long, capable of supporting at least 100 kg at front edge, minimum one toilet roll holder on one of the support rails.
